## About This Game

**Gladiator School is a deep management simulation game with hand drawn, humorous characters and environments.**

You've inherited a plot of land and are led to build your own gladiator school. Now you must recruit fighters and command them to train hard. Every decision will matter.

What weapons should they use? What skills should they learn? It is your job to prepare them as best as you can before you send them away to fight.

Keep a close eye on your gladiators, make sure they are well fed, loyal and that they get some recreational time outside the gym or they might become very angry and rise up against you.

Your goal is clear, make your gladiators famous in the arena to earn as much coin as possible. Make the crowd go wild...

very good little game worth a buck. An interesting but entirely unfinished game I bought for less than the cost of a soda.

Worth all 119 pennies.

Most features are not entirely finished, but the game is playable.

If you are looking for any tactical depth, you won't find it here. Plays like a slow and dumbed down Swords and Sandals.

. This game is quite good, difficult at first, however if you do purchase the game and find it boring at the start like I did. Give it about an hour, it will start to get better quickly.

. Extremely boring

srr but this game will be too expensive at price even if this will be f2p

(i rambursed this game and i purchased it with 1 euro)
